

NANDINI MADDIPATI

M.Sc. Artificial Intelligence & Data Science – Deggendorf Institute of Technology

PERSONAL DETAILS

Location: Germany
Mobile: +49 15170027480
Email: nandinichowdary171@gmail.com
LinkedIn: [linkedin.com/in/nandini-maddipati-186611245](https://www.linkedin.com/in/nandini-maddipati-186611245)
GitHub: github.com/nandinimaddipati17
Portfolio: <https://nandinimaddipati17.github.io/nandini-maddipati.github.io/>

PROFILE

Master’s student in Artificial Intelligence and Data Science with hands-on experience in machine learning, data preprocessing, statistical analysis, and analytical problem-solving using Python, Pandas, Scikit-learn, SQL, and data visualization tools. Experienced in working with structured and high-dimensional datasets, developing predictive models, and building AI-assisted analytical workflows. Strong interest in causal AI, root cause analysis, process analytics, and data-driven scientific applications. Skilled in exploratory data analysis, workflow optimization, technical documentation, and interdisciplinary collaboration.

EDUCATION

03/2025 – Present	MSc in Artificial Intelligence and Data Science – Deggendorf Institute of Technology Deggendorf, Germany Expected graduation: 09/2027 • Relevant Coursework: Financial Data Analysis, Time Series Forecasting, Probability Theory, Business Intelligence (BI), Predictive Analytics, Capital Markets Fundamentals.
07/2020 – 06/2024	BTech in Computer Science - Annamacharya Institute of Technology and Sciences Tirupati, India Achieved an outstanding 1.4 GPA • Relevant Coursework: Machine Learning & Artificial Intelligence, Database Management Systems, Software Engineering, Cloud Computing.

PRACTICAL EXPERIENCE

07/2024 – 02/2025	Prompt Engineering Intern Prowork – India • Prepared reusable LLM prompt templates that reduced response time by 25% and improved consistency. • Analyzed over 2000+ user interaction patterns to improve LLM response accuracy by 20%, strengthening automation workflows.
09/2023 – 02/2024	Blockchain Technology Intern FutureSkills Prime – India • Learned blockchain fundamentals, distributed ledger technology, and the consensus mechanisms. • Explored cryptographic hashing, cryptocurrency transactions, and smart contracts. • Studied real-world blockchain applications in finance, supply chain, and decentralized systems.
06/2023 – 07/2023	Data Science Virtual Intern PreqInsta – India • Introduced to data science and machine learning concepts • Completed virtual case studies focused on exploratory data analysis (EDA). • Applied Python libraries for data cleaning and visualization.

PROJECTS

Movie RAG Chatbot (FastAPI / Streamlit / FAISS / Python)

- Developed an end-to-end Retrieval-Augmented Generation (RAG) application using FastAPI, Streamlit, and FAISS to answer natural language questions through AI-based retrieval workflows.
- Applied embeddings, vector search, and structured knowledge retrieval techniques to improve accessibility and interaction with AI-generated responses.

AI Support Ticket System (Python / OpenAI APIs / RAG / Qdrant / n8n)

- Worked with structured datasets, workflow pipelines, and analytical workflows to improve efficiency, scalability, and structured response handling.
- Developed an AI-assisted workflow using Python, OpenAI APIs, and automation tools to process structured support data and generate multilingual responses.

Vending Machine Sales Analysis (Power BI / Dashboard / Data Analysis)

- Developed an AI-assisted reflection workflow using LangGraph and Python to iteratively refine and improve generated responses.
- Applied reasoning workflows, structured feedback loops, and AI-assisted evaluation techniques to improve response quality and analytical consistency.

Mango Leaf Disease Detection (Python / ML / Computer Vision)

- Developed a machine learning-based image classification workflow using Python and computer vision techniques for predictive analysis and automated detection tasks.
- Applied preprocessing, feature extraction, and model evaluation techniques to improve prediction accuracy and analytical performance.

SKILLS

Machine Learning & Analytics:	Python, Pandas, Scikit-learn, PyTorch, SQL, Machine Learning, Statistical Analysis, Data Preprocessing, Exploratory Data Analysis (EDA)
Data Processing & Visualization:	Data Transformation, Data Validation, High-Dimensional Data Handling, Data Visualization, Dashboard Development, KPI Reporting, Streamlit
AI & Analytical Workflows:	Generative AI, OpenAI APIs, AI-Assisted Workflows, LangChain Basics, LangGraph, Workflow Optimization, Analytical Problem-Solving
Technical & Collaboration Tools:	Technical Documentation, Microsoft Excel, Microsoft PowerPoint, Reporting, Cross-Functional Collaboration, Problem-Solving, Microsoft Teams

ADDITIONAL INFORMATION

- **Languages:** English (C1), German-A2 (actively improving towards B1)
- **Availability:** Available for a mandatory full-time internship from July 2026 for 6 months
- **Location:** Open to relocation and available for on-site collaboration as required
- **Work authorization:** Valid German student residence permit with work authorization
